Thanks Team Joe for turning these around.

Best -  
Mary

Subject: Navy Comments on partial draft Biological Opinion for the recently listed species - Marine Relocation to Guam

Mary,

As requested, attached you'll find our comments on the portions of the draft BO that your office provided on April 14, 2016. As requested, our comments are in track changes with comment bubbles.

My hope is that your efforts incorporating these comments will not delay receipt of the final draft BO on June 1st. The review timeline has become a critical activity to the Navy's efforts in the relocation. Also as I mentioned in my email yesterday, I may have additional comments on the first 123 pages of the partial BO since the document did not contain information on the Mariana eight spot butterfly nor the orchid species in the Status of the Species and Environmental Baseline. When I provide feedback on the completed draft BO in early June, my comments will be comprehensive.

If you have any questions about our comments, please contact me or Coralie Cobb directly at (b) (6) or (720) 542-3085

Joe

Very Respectfully,  
Captain Joseph A. Campbell  
Office of the Assistant Secretary of the Navy (EI&E)
